

**BOLLARDS FOR DISTRIBUTION OF
ELECTRICAL POWER AND OTHER
SERVICES**

(PUBLIC SPACES, PORTS AND CAMPINGS)

INNOVATION , RELIABILITY, ROBUSTNESS ...

Active since 2003, VMR has always specialized in designing and manufacturing BOLLARDS for marinas, ports, docks and camping areas as well as RETRACTABLE UNITS for squares and historical centers. High quality materials and components ensure reliability and durability.

CUSTOMIZED DESIGN AND CONFIGURATION ...

Thanks to a young, dynamic staff and partners of international standing, VMR provides a full design service, to fulfill specific requirements in terms of size and design.

MANAGEMENT OF UTILITIES

On our units for distribution of water and energy, can be applied a system of accounting and pricing of services, provided for use in ports, campings, picnic areas or in all those who need a distribution fee.

The system can be **timed or actual consumption** of energy and water. The services are managed via microchips / card, transponder or **PREPAID** or directly with coin, and allow two types of operation: **stand-alone or networked with remote management**.

PAYMENT MANAGEMENT ...

Customization of services and of their management has become a basic requirement for the majority of utilities Managers in both public and private environments. VMR offers PAYMENT MANAGEMENT services either in PREPAID mode with keys or badges or ON DEMAND mode with tokens or coins.

PORTS, CAMPINGS, CAMPER AREAS

Our range of units for marinas and campings is right for all necessities: cost, convenience, and management. They are completely made of stainless steel AISI 316L and can be equipped with a variety of services such as electricity, water, data / voice, gas distribution, etc..

Our company also develops products on specific projects

PUBLIC SPACES, MARKET AREAS, TOWN CENTRES

Due to their attractive design, our columns can be used as elements of street furniture and decor for public areas and town centers, blending with the urban furniture, creating a space multifunctional receptive thanks to the services provided such as electricity, water, data / voice, gas distribution, etc..

Our company also develops products on specific projects
